FM Allocations

Dear FM allocations;

This is a letter to formally request an change in the FM allocations tables for Nassowadox, Virginia. I would like to request Channel 252A allocated to the community.

Nassowadox, Virginia is located in Northhampton County on the Eastern Shore of Virginia. Nassowadox, Virginia is an incorporated city of about 300 to 500 people. There is a post office and a college close. Nassawadox has shopping, collectibles shop and is also the located of the Northhampton-Accomac Memorial Hospital.

There is only one FM radio allocated in Northahmpton County. It is WROX FM 96.1 in Cape Charles. This radio station has studios in Norfolk and ignores the area. If allocated, I will apply for this license.

Enclosed are four copies of this letter, plus engineering data to support the allocated on this frequency. The study was done by Scientific Broadcast Systems of Corydon, Indiana. If you have any questions, please call me at (757) 547-3368. Thank you for your time and have a nice day!

Sincerely,

Ken Robol

DEVELOPMENT COULD CHANGE FACE OF TOWN

BY MYLENE MANGALINDAN
STAFF WRITER

The Texas company that has made Cape Charles the center of big plans for more than two decades has agreed to sell nearly 2,000 acres around the Eastern Shore town to a Virginia Beach developer.

Brown & Root Inc., the Houston-based engineering and construction firm, agreed on Sept. 20 to sell its property to Baymark Construction Corp., Baymark President Richard Foster said Wednesday.

The multimillion-dollar deal will set into motion plans for a retirement development that Brown & Root proposed eight years ago but never made significant strides toward building.

It also ends 22 years of waiting for the residents of Cape Charles, who have wondered what Brown & Root would do with the property since the company bought it in 1974 for an offshore drilling base.

Residents' attitudes toward Brown & Root's presence have ranged from antagonism and distrust to the feeling that major development is the best hope for a dying town.

Brown & Root paid \$5 million for the 2,000 acres to a New York woman who had inherited the property. The company wanted to build a plant to manufacture offshore oil-drilling platforms.

But the lack of oil, and gas strikes along the East Coast, forced the Texas company to abandon its plan and its promise of 2,000 jobs in 1979.

Nine years later, it proposed a retirement community on the parcel with up to 3,000 housing units, two golf courses and a marina.

Foster, the new owner, has his own vision for the property.

He wants to build an "adult community," or a retirement complex, similar to a 300-unit community called Coastal Green that he's proposed in Virginia Beach. That project has aroused controversy because it would be below the city's "green line," which has restricted development in the lower, rural half of Virginia Beach.

THE DEAL: Brown & Root plans to sell nearly 2,000 acres of property around Cape Charles to Baymark Construction Corp., a Virginia Beach developer. Baymark's plans to build an adult community with two golf courses ends 22 years of waiting in Cape Charles, which has wondered what would become of the land.

Huge E. Shore project gets new life

TIMETABLE: Construction on the golf course should begin in the spring, after the property sale has closed. Development of the entire 2,000 acres could take 10 to 15 years.

Shore: Cape Charles acreage to be sold to Virginia Beach man

Continued from Page A1

Another part of Foster's Cape Charles plan includes setting aside space for people interested in building a second or vacation home.

And he wants to build two championship, signature golf courses designed by companies connected to Arnold Palmer and Jack Nicklaus — a 36-hole attraction to draw people to Cape Charles.

"I want Cape Charles to be the center of town," he said. "And I want to make it a viable town."

The sale closes in six months, which is when construction on the golf courses should begin, Foster said. That time frame gives him a chance to read and evaluate all the environmental studies, paperwork and details that Brown & Root are sharing with him from their files.

But he's already moving things along.

He hired a helicopter Tuesday to take representatives of the golf course design companies on an aerial tour of the property. Within 10 days, he expects a plan from them for the best layout for the courses.

He also met with the Cape Charles City Council on Tuesday night to inform the officials of the deal and discuss ideas with them.

The parcel to be sold to Baymark is 1,846 acres. Brown & Root sold 50 acres of its 2,000-acre block to Northampton County for an ecology park in 1995, and the county has an option to buy 104 more acres, said Leo Weinberg, Brown & Root's project manager.

Foster declined to discuss the terms of the deal with Brown & Root.

Foster, a Virginia Beach native, began showing interest in Cape Charles about a year ago. Some residents, having heard his reputation for quality residential development, contacted him and invited him to look at the town and the surrounding area.

It came at a time when he was discouraged from moving forward with some development proposals in Virginia Beach, Foster said. So he thought he'd check out what the

Around the same time, he met a Virginia Beach zoning lawyer who represented Brown & Root, who hooked him up with the company.

"I really wasn't interested at the time," Foster said. "I met them and this thing evolved."

He decided that he wanted to make a difference.

"The town is declining, obviously," Foster said. "I want to be a part of helping that community come back and restore what they're looking for. I think we're on the same page. It's a nice town, and it could be that again."

Foster said he plans to attend town meetings and participate in community forums to get residents' input in what the 2,000 acres should look like and become.

Residents had mixed reactions Wednesday to the news of the sale.

Lyn Wyatt, an artist and president of the historical society, expressed fear that development might take over again.

"We have mixed emotions about any sort of development," he said. "The idea of tract housing, nail-clad, vinyl housing, scares me because we have such a special place here."

He worries that the limited water supply may be exhausted and that environmental concerns may not enter the development equation. But he believes Cape Charles needs some sort of help and hopes that selective, balanced development that's worthy of the setting becomes the call.

Kim Starr Wendell, who owns Chesapeake Realty, hopes the development will help revive some of the old glories once known to Cape Charles. The Eastern Shore town, on the banks of the Chesapeake Bay, was once a busy stopover for tourists and visitors, with a railroad stop and a ferry landing, she said.

"Cape Charles was a destination for people, and I think that's what we're going to see with this," Wendell said.
